**1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)**

I have been a Duke Energy customer for several decades, living through rate hike after rate hike.

**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

I oppose Duke Energy's rate hike. As the Huffington Post reported:  
"The Democratic National Committee will not have to repay the full \$10 million line of credit from Duke Energy -- the country's largest electric power company -- used to fund the 2012 Democratic National Convention, contradicting the committee's self-imposed prohibition on corporate funding for the Charlotte-based event."  
My point of view: This money should come out of the pockets of share holders, not the customers. We cannot buy power from any other company, so they have no right to use money this way and then expect us to "foot the bill".

**3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? \***

No, but thank you.
